

PF500PFP

FILM DATA SHEET

1435 S GROVE AVE #1 ONTARIO,
CA 91761-4590
(844) 857-8277
PackFreshUSA.com

Physical Description:

Silver Laminated PET/Foil/Poly barrier film

Application:

PF500PFP is a foil barrier material used when excellent oxygen and moisture protection is required. It is FDA approved, has a dull silver appearance and is used extensively in food, medical and general industry. It is a popular structure due to its puncture protection, outstanding barrier and relatively low cost characteristics. The foil provides a superior barrier, and the polyethylene enables it to be heat-sealable.

Converting:

It can be converted in many ways: 2-seal pouch, 3-seal pouch, side gusset, stand up pouch and tubing. Features include: reclose able zipper, tear notch, round hang hole, and sombrero hang hole. The PF500PFP can also be surface printed or reverse-trap printed and is available to web widths of 60".

Physical Properties:

PROPERTIES	TEST METHOD	UNIT OF MEASURE	TYPICAL VALUE
CALIPER		MILS	5.0
YIELD		SQ.IN/LB	5400
MVTR	MOCON	GMS/100 SQ.IN/24 HRS	0.0006
OTR	MOCON	CC/100 SQ.IN/24 HRS	0.0006

The values indicated in this document are the results of tests made in compliance with normal standards. They are given as an indication and should be considered as average values. Safeguard Brands, Inc. and PackFreshUSA make no warranty, expressed or implied, as to the suitability of these materials for any specific use. The values shown above were developed from random samples taken from production material. Actual values may vary somewhat from those depicted here. Customers should determine product suitability for their applications based upon their own testing and internal criteria.
